CERTIFICATE

Katarzyna Malinowska

Has successfully completed test requirements of
The European Information Technologies Certification Programme

EITC/TC/OST Office software for telework

Certification Programme examination result: 86.67%

Certification Programme description:

Office software for telework/telecommuting: desktop sharing in operating systems, network distributed applications; Introduction to basic office software tools: word processing software - MS Word as an example (basic content, text formatting, exemplary functionalities, tracking changes in document), spreadsheet software - MS Excel as an example (basic data content, exemplary functionalities, work with datasets, charts, pivot tables), multimedia presentation creation software - MS PowerPoint (basic presentation creation, exemplary functionalities); Theoretical introduction to databases: database application, database structure; IT infrastructure for telework/telecommuting: ERP, BI, HRM, CRM; vTiger as CRM example: installation, configuration, basic functionalities; Workgroups management: Google Apps as exemplary environment for workgroup coordination (available applications)

Certificate Programme version/revision: EITC/TC/OSTv1r1

CERTIFICATE ID: **EITC/TC/OST/FMP/14004554**

EITC/TC/DDET Distributed databases and data engineering for telework

Certification Programme examination result: 78.87%

Certification Programme description:

Databases introduction: database models (data in relational approach, hierarchical and relational data models), distributed databases; Business Intelligence systems: idea, structure, exemplary systems; Artificial intelligence for data analysis: mathematical and logical structures, self-learning structures, semantic networks; Data presentation: Internet browsers (functionalities, exemplary browsers), HTML language (HTML elements, text and hyperlinks), cascade style sheets CSS (CSS attributes, objects manipulations: lists; tables), JavaScript (functions, variables, operators, loops and conditional instructions), PHP language (handling POST and GET methods), servlets, ASP.NET and CGI, XML (XML and PHP), XSL

Certificate Programme version/revision: EITC/TC/DDETv1r1

CERTIFICATE ID: **EITC/TC/DDET/FMP/14004554**

EITC/TC/ITRSMT Internet technologies and remote system management for telework

Certification Programme examination result: 58.87%

Certification Programme description:

Telecommunication network introduction: network topologies, ISO/OSI, network protocols; World Wide Web: introduction, threats; Basic communication protocols and services: telnet, FTP, SSH, Gopher; LAMP: Linux, Apache, MySQL, PHP/Python/Perl; Databases: MySQL; SOA architecture; SaaS concept; Web applications; Domain: idea, registration, options, configuration; SFPT: WinSCP as exemplary tool; Hosting resource management tools; Servers: virtual server; Web pages and services designing: content, visual design, CMS templates, Drupal CMS (basic functionalities, modules), Joomla! CMS (basic functionalities, modules)

Certificate Programme version/revision: EITC/TC/ITRSMTv1r1

CERTIFICATE ID: **EITC/TC/ITRSMT/FMP/14004554**
